ON 1st & 2nd NOVEMBER, 2020
AT PERI INSTITUTE OF TECHNOLOGY, CHENNAI, INDIA

ABOUT US

PERI Institute of Technology (PERI IT) was established in 2010 by the PERI Educational and Charitable Trust with the objective of providing quality technical education. The Institute is built at Mannivakkam, Chennai in a sprawling area of 15 acres replete with A/C classrooms, well equipped labs, A/C transport, cafeteria and a vast library. PERI IT offers both B.E. and M.E. courses, which ensures quality education and engage itself in relentless efforts to synchronize the educational and co-curricular requirements for the development of the overall personality of the students.

VISION

PERI Institute of Technology has a vision to be an internationally recognized seat of higher learning in Engineering, Technology & Science. PERI also visualizes being a research incubator for academicians, industrialists and researchers from different parts of the world.

MISSION

PERI Institute of Technology will endeavour to emerge as a premier technical institution in the country by

1. Providing state-of-the-art infrastructure facilities to achieve excellence in teaching-learning, Research & Development.
2. Aligning with leading industries to create competent engineers through internships and placement focused training.
3. Create an environment which is conducive to learn skills which will solve pressing issues along with foundation in moral values and ethics.

INTERNATIONAL ASSOCIATION OF PROFESSIONALS AND TECHNICAL TEACHERS
ISO 29993:2017 & ISO 9001:2015 certified Association

With the world moving at a fast pace, there are professionals who are continuously burning themselves in the Technical field, concluding new and considerable results. There are researches being done on almost every possible field that we come across. But, what's the use of all these efforts and results if it doesn't reach to all the people who are attached to it in some way or the other?
We all know Knowledge increases by sharing and not by saving.
From here, the idea of the International Association of Professionals and Technical Teachers pops up.
This International Association of Professionals and Technical Teachers have been started with an aim to serve as a bridge between the technical teachers and professionals of different fields. And also bring the entire technical teachers to a platform where they can engage with experts worldwide and get updated with the recent trends and on-going researches in their respective fields.

ICIRCC'20

The primary goal of the conference is to promote research and development activities in Electrical, Electronics, Computer, Information, Communication and Mechanical Engineering to promote scientific information interchange between researchers. This conference aims at bringing together the Researchers, Scientists, Engineers and Scholar students in the areas of Engineering and Technology and provides a forum for the dissemination of original research results, new ideas. The conference would offer a large number of invited lectures from renowned speakers from different eminent institutions, from different countries. This would provide an opportunity to research scholars, delegate students to interact and share their experience and knowledge in technology application. The technical sessions would encompass speakers from academics and science to reach each and every individual

Therefore, today we are here with some important information about all the International conferences on recent trends in Engineering and Science.

PURPOSE OF THESE TYPES OF CONFERENCES

The main purpose of these International conferences that are conducted by academic scientists, researchers, and research scholars is to discuss the recent innovation, trends, and concerns.

It also focuses on practical challenges that are encountered, and the solution that is adopted in the field of recent trends in Engineering and Science.

AUTHOR GUIDELINES

Prospective authors are invited to submit manuscripts reporting original unpublished research and recent development in the topics related to the conference. It is required that the manuscript follows the standard Single Column paper format. Submissions must include title, abstract, keywords, author and affiliation with email address. Please double-check the paper size in your page setup to make sure you are using the A4 size paper. The paper should not contain page numbers or any specials headers or footers.

Regular papers should present novel perspectives within the general scope of the conference. The conference only accepts full manuscripts with maximum 10 pages. Authors should submit their papers online. We use Easy Chair system for submission of papers and review process. Unregistered authors should first create an account on Easy Chair to log on. To avoid last minute network problems, authors are strongly encouraged to create their Easy Chair submission system user accounts (if you do not already have one) and register their submission well in advance of the deadline.

IMPORTANT POINTS FOR AUTHORS

1. Content with respect to Conference
Submitted articles or papers are expected to fit within the subject matter scope of the conference. It is recommended that the content published and disseminated via the conference proceedings record should reflect accurately the scope of coverage.

2. Written Quality Requirements
The content of the article or paper should be of sufficient written English quality to enable readers to follow the narrative easily. Articles or papers should contain most (if not all) of the standard elements found in research papers.

3. Reviewing the Content
A proper editorial screening process is considered the key to develop a strong conference program and a high-quality conference proceedings publication. The papers will be reviewed by two eminent professors to enforce high standards of submissions.

CALL FOR PAPERS

ICIRCC'20 aims to provide an opportunistic forum and vibrant platform for researchers and industry practitioners to exchange state-of-the-art knowledge gained from their original research work and practical developments on specific new challenges, applications and experiences, to establish business or research relations, and to find global partners for future collaboration on emerging issues. The conference focuses on the frontier topics in all the domains of Engineering like, Computer Science Engineering, Electronics and Communication Engineering,

SCOPE AND BENEFITS

- Accepted papers will be published in the conference proceedings with ISBN NUMBER.
- Accepted papers will be published either in SCOPUS/UGC Approved/ High Impact factors Journals.
- Accepted paper will be provided with a Conference Digital Object Identifier (CDOI) number with which they can find their research paper uploaded at the doidirectory.com.
- All author[s] will get Two Certificates "Certificate of Appreciation" and "Publication Certificate".
- Awarded will be given for the Best Research Paper as well as Best Paper Presentation.
- DELEGATES EXCHANGE PROGRAMME (IDEP): Delegates from IAPATT conference with brilliant ideas and research initiatives would be sent to carry out the research and development activities at overseas, abroad and International organisations having collaboration with IAPATT.
- Delegates with research activities and innovative ideas which may be beneficiary for humanities will be funded through IAPATT Research Funding Scheme.
