August 4 2017

ASSOCIATION INGAGURATION

The Faculty and students of Computer Science & Engineering Department, PERI institute of technology organized the CSE Association Inaugural Function on August 4 2017. The inaugural function commenced with invocation and lighting of the Ceremonial Lamp. A warm welcome address was delivered the head of the department Ms.Revathi along with a brief note about the department.

The principal Dr.R.Palson Kennedy briefed about the CSE association. He stated, "It is an association which inculcates in upbringing the CSE department and also setting up new ideas for the moral and intellectual growth of the students". Mr.Shabarinath founder of Respro labs, CIIET was the Chief Guest of the Association Inaugural Function, delivered the inaugural address. The eminent chief guest briefed about the importance of the association and on how to achieve a good progress. He emphasized on the latest technology IoT related with embedded system.

Internet of Things (IoT) is an ecosystem of connected physical objects that are accessible through the internet. The 'thing' in IoT could be a person with a heart monitor or an automobile with built-in-sensors, i.e. objects that have been assigned an IP address and have the ability to collect and transfer data over a network without manual assistance or intervention. The embedded technology in the objects helps them to interact with internal states or the external environment, which in turn affects the decisions taken. Internet of Things can connect devices embedded in various systems to the internet. When devices/objects can represent themselves digitally, they can be controlled from anywhere. The connectivity then helps us capture more data from more places, ensuring more ways of increasing efficiency and improving safety and IoT security.

The Principal and head of the department introduced all the Office Bearers of the CSE Association for the academic year 2017–2018. The association logo "SPINAETOS" was declared and released. The Students were awarded for their remarkable performance in academics. The recognition of performance motivates the students, helps them to take pride in their work, heightens their level of commitment, and gives them more encouragement towards academics.

The news letter was released during the function.

A club was introduced in the function – Seekers club. The club is established in order to enhance and enlighten the basic technical skills of the students. The key motive of the club – knowledge sharing by one student to another in a friendly manner.

The Momento was given to the Chief Guest by Dr.R.Palson Kennedy followed by the vote of thanks. We were privileged to have Mr.Shabarinath presence in the function and making the CSE Association more profound. The Inaugural Function of Computer Science and Engineering (CSE) Association ended with the National Anthem.
